Car Hire Hints

Understanding your rental!

If you're booking online, read the terms and conditions carefully before confirming your reservation. If you're booking on the phone, ask the agent about restrictions. Be sure you understand the conditions of your reservation. Is there a penalty for no-shows? How long will the car be held if you're stuck in traffic on the way to the pickup station? Is there a fee for additional drivers and must their names be listed in the contract? Is your 20-year-old daughter old enough to drive the car?
