Come to Crete to visit:

The Red Beach in Matala

It's a quiet non touristic place near Matala. It's just possible to go by foot to this small and very beautiful place. You pass from behind of all the tavernas and restaurants and walk to the east. The way is not easy to walk and you'll need good shoes. It will take you about 1/2 hour to reach the beach but you should see it.... It's amazing!!

Car Hire Hints

Full Insurance without excess!

A lot of customers think if they have Full Insurance without excess they are free of any charges. This is completely wrong!
If you have an accident or a parking damage you have to call your rental company immediately otherwise they can charge you the damage. No insurance pays a damage without seeing it. So if you have any problems you have to call immediately so the insurance company has the possibility to make photos and what ever they need!
